Exotic Metals – Aircraft Services Announces Agreement with Avion Global

Exotic Metals – Aircraft Services

“Our Experience is Your Solution”

14 February, 2007

Exotic Metals – Aircraft Services, a unit of Exotic Metals Forming Co. LLC (EMFCO), is pleased to announce the signing of an agreement for Avion Global to serve as their exclusive representative for products & services provided to airlines and related maintenance companies around the globe.

EMFCO is a world class OEM manufacturer for Boeing, Airbus, Pratt & Whitney, Goodrich and others, providing complex sheet metal assemblies made from high nickel, titanium and stainless steel alloys. The **Aircraft Services** business within **EMFCO** provides repairs and spares of engine bleed and anti-ice ducting, environmental control system ducting, engine and APU exhaust assemblies, wing anti-ice ducting, and a variety of other assemblies made from the high temperature alloys mentioned above.

Avion Global is an international sales and distribution company specializing in aftermarket services and parts sales to commercial airlines and MRO facilities worldwide. Avion Global has technical sales professionals located in Asia, North America, Europe and Latin America with a track record of success in serving their clients and customers.
